Design Matters: Architecture Engineering Planning: the Story of Vvkr, Randall R. Vosbeck, Special Editions, 2003, 0974034800, 9780974034805, . A full color book with over 200 images of photographs and historical records chronicling the works of VVKR, an architectural, engineering and planning firm. It spans three decades primarily in the mid Atlantic region of the United States from the 1960s to 1980s. In addition to documenting its award winning architectural designs, it tells how the company evolved, its philosophies of design and practice, and how it was closed down.VVKR was the first recipient of the T. David Fitz-Gibbon Architectural Firm Award by the Virginia AIA. Numerous other awards were given for landmark structures both in the United States and abroad..
